Mr. Damberg and Group –

Thank you for taking the time to perform at Skyview Middle! Your group sounded amazing and your guys were very easy to work with. I appreciate how you incorporated a quick, fun lesson and audience participation into your routine. My kids were very well engaged with learning latin grooves, music history, and world music. When it came time to hand out instruments for them to play, I was shocked at their enthusiasm. I only wish we had more time to do an extended workshop. We would welcome your group back any time!
